Globe, Ariz., May 10, 1900.

I am prepared with a nice line of samples and can give satisfaction to those wanting neat fitting suits at bottom prices. G. S. VAN WAGENEN.

### For Sale.

The Haag orchard at the southern limit of the town of Globe, comprising about two acres under a high state of cultivation; about 160 bearing fruit trees—pears, apples, peaches, apricots and plums, of many choice varieties; also about 900 bearing grape vines of the most desirable kinds. At the highest point of the orchard are two good wells, connected at bottom by tunnel, furnishing an inexhaustible supply of water. Over one well is a large Aerometer windmill with double action pump, and in the other well is a steam jet pump connected with a boiler of 12 h. p. practically new—everything complete. Also a water tank of 4000 gallons capacity. From the tank situated near the eastern end of the orchard, the ground slopes gradually, permitting the easy flow of water to every part of the enclosure. This very desirable property will be sold at a bargain for cash, or on one year's time. Address. A. HAAG.  
31 Globe, Ariz.

### Photograph Gallery.

L. A. Skelly has opened what has been known as the Miller Gallery and has purchased the Miller outfit and negatives. Portraits in Platino. Photo Stamps and Buttons a specialty. East of the new Bank.

SKELLY'S PHOTOGRAPHIC STUDIO.

C. E. Taylor is the sole agent in Globe for Cyrus Noble whisky.

For rent, the 5-room house north of Odd Fellows hall. Possession given June 10. Apply to J. H. Hamill.

### A Free Scholarship to Each County.

The Carnegie college, a newly incorporated institution at Rogers, Ohio, in order to introduce its methods of teaching by correspondence, will give one free scholarship to each county in our territory. The free scholarship grants the student free tuition in the normal and academic courses, and also in the business courses, including book-keeping and shorthand. All the instruction is given by mail at the student's home. Students making application for free scholarships should write at once to the college and mention this paper, and also the county and territory.

### Payson News.

From Our Regular Correspondent.  
Payson school district has 42 children of school age.

Richard Duncan, who came here some three months ago from San Francisco on a visit to his brother Tom, left on the Sunday stage north on his return to California.

We learn that Mr. August Pieper has been appointed administrator of the Frank Shultz estate.

A. B. Peach & Co's teams pulled out for Flagstaff Friday after merchandise for E. J. Bonacker and others.

H. W. Nash went over to the Mazatzal Copper group, last Sunday in company with one of the owners, returning on Tuesday. Harry was surprised at the amount and grade of ore he saw, and is now wondering if there is not something in luck.

J. W. Boardman has had a large awning placed in front of his store building, which adds greatly to its appearance.

W. H. Hilligass, the genial proprietor of Tammany, is having a large cabinet made to be placed in the Hall.

In attempting to secure title to a long ear, this week, the horse that Art Gibson was riding stumbled and fell, causing the rider to be laid up several days.

The rodeo for this vicinity finished its work this week. The boys did good work and now mavericks and dogies are things of the past.

Miss Naron took her departure for home Thursday, after a very pleasant visit with friends here.

J. D. McFarland, fiddler and prospector, came over from the Mazatzals this week. He reports several new finds, in the Saddle mountain district, of copper and gold.

L. P. Cole was up from Gisela on Thursday last, buying supplies, etc.

Pete Haught was down from Rimrock Friday, doing business with our local merchants.

Harry Nash, the straightup and all-around hustler, soldier and miner, left Friday for the south.

Several beautiful specimens of copper ore were brought in this week from the Eschequer mine, Mazatzal district, showing purple copper, and containing some \$20 in gold and silver by assay. A cut run on the vein shows over ten feet of this character of ore.

Albert Booth was a visitor to Payson last Friday.

A large nugget weighing 42 pounds, was brought into town a few days ago from the Gun creek district and now is puzzling the grey matter of the entire force of local experts. The opinions vary from malleable iron to silver and either coming from the meteoric world or from some volcanic eruption. Sulphuric and nitric acid tests will not be accepted and only a test made by some chemist of renown, with affidavit attached, will ever convince some of our experts that 16 to 1 is worldly and not heavenly.

Mrs. J. W. Boardman left during the week for the Highland Cold Spring ranch, to visit with the Misses Lawson. J. W. and sons, during her absence, will, no doubt, become first class chefs—provided can goods hold out.

Bud Armer and family came in Friday and will in the future make this place their residence.

Sam'l Haught passed through here the 27th with a large band of cattle, which he is to deliver at Winslow.

Today (Sunday) is quite lively, there being a number of people in town, among whom are, John Merritt, J. H. Fuller, A. J. Franklin, Wm. Brodie and several others; all good solid citizens who enjoy a lay-off occasionally at the future great copper camp of northern Gila county.

### A New Railroad Project.

The Jerome correspondent of the Republican says: Mr. Goucher, a railroad promoter for the Vanderbilts, visited Jerome Saturday for the purpose of obtaining data on a railroad project they are figuring on. The projected road will be built from Williams to Jerome, thence down the fertile Verde valley, across the mountains to Globe via Payson and the Tonto basin country. Such a road would certainly be a great thing for Jerome, and would be the cause of making Tonto basin one of the greatest mining districts on earth. There is no doubt that the proposition would be a paying one from the start. The rich valleys of Oak creek, Clear creek and the Verde would have an outlet for all kinds of products and would produce prodigious crops. The lumber traffic from Williams to the great United Verde mines would be a considerable item. The Tonto basin is rich in all kinds of mineral, and has wood, timber and water in plenty. It has been held back heretofore on account of its inaccessibility, but with a railroad traversing it it would greatly add to the wealth of Arizona. It is said the surveyors are also out on the line of the Mineral Belt road from Globe to Flagstaff, via Payson, and from all indications, either one or the other of these roads will build within another year.

### Memorial Services.

Decoration Day was more generally observed in Globe on Wednesday than for many years past. The exercises, which were conducted by Alexander

Post, G. A. R., and Relief Corps, and participated in by the children of the public schools, were both interesting and impressive. The programme at Odd Fellows hall in the forenoon comprised the singing of America, appropriate addresses by Rev. E. O. McIntier and Rev. E. R. Ferguson, and the reading of the general orders.

The procession headed by the Globe band, followed by the school children in charge of their teachers, members of the Grand Army on foot, and ladies of the Relief Corps and citizens in carriages, wended its way to the cemetery, where the exercises by the Grand Army were concluded, followed by the performance of the beautiful custom of decorating the graves.

In the evening a more elaborate programme of addresses, recitations and music was rendered, under the direction of the Relief Corps. The flag drill by sixteen school girls, trained by Mrs. James Wiley, deserves especial mention. Following is the programme:

1. Reveille.—Fred Allum.
2. Prayer.—Rev. E. O. McIntier.
3. Song. "America."—Corps and audience.
4. Reading Orders, by the president
5. Recitation, "To My Wife."—Josephine Wog.
6. Song, "Columbia."—Corps and School.
7. Address and Recitation, "Antietam."—Frank Aley.
8. Song, "Just as the Sun Went Down."—Ten small children.
9. Song, "Salute the Old Defender"
10. Recitation, "Little Dot."
11. Song, "Call them Back"—Corps.
12. Recitation, "Black Tom."—Pearl Stelly.
13. Solo, "The Vacant Chair."—Mrs. Harker and others.
14. Flag Drill.—Sixteen school girls.
15. Solo.—Mrs. Patton.
16. Address.—C. J. Eggers.

### A Pleasant Occasion.

Wenonah Council, No. 1, Degree of Pocalontas, after the regular business meeting, last Friday evening, held a reception in honor of Mr. and Mrs. F. W. Westmeyer and Mesdames Keegan Temple and Miller. There were some fifty guests present in addition to the members of the lodge. There was no set programme, but the company enjoyed themselves in social converse, and with various games. Seasonable refreshments were served. Wenonah Council enjoys a large measure of popularity and their entertainments are always pleasant and well attended.

### Deer Creek Coal Fields.

EDITOR SILVER BELT: I beg to say that J. H. Chambers and myself made a trip to the upper coal fields during the past week. We met Dr. Phillips, who is superintending the development work there. He was just leaving his Sibley tent and making for the Coal Fields house to dine, and being invited to partake of the good things of the house, we responded cheerfully.

Dr. Phillips spoke of the causes of delay, which he regretted, but did not anticipate any further detentions, and expected that the diamond drill would be started on Wednesday, the 30th instant. The first drill hole to be put down will be about 200 or 300 yards in a northerly direction from the Coal Fields house. The drill was on the ground.

Two prospect shafts have been started, one being located about 200 feet southwest of the old deep shaft, which has long since caved in. A windlass had just been erected on this new shaft. The second shaft is about one-half a mile in a southwesterly direction from the house. The Anderson brothers sank their last shaft there in 1896, to the depth of 40 feet, in which there is good coal. There are five or six feet of water in this shaft. Coal has been taken out from above water level for tool sharpening from time to time, and at this present working a drift has been run about 30 feet westerly and an upraise and shaft to connect is now in progress. A windlass stands on this shaft for temporary use, and a horse power winch is on the dump, to be erected and put in action as soon as possible.

The coal is of good quality at this place and chunks weighing 75 to 100 pounds were recently taken out. The shaft will be sunk on the dip of the vein, about 45 degrees. A force of ten men is employed. J. P. FAULL.

### Rough Rider Reunion.

The second annual reunion of Roosevelt's Rough Riders will be held in Oklahoma City July 1st, 2nd, 3rd and 4th and judging from the quantity and quality of advertising matter that is being sent broadcast throughout the land it will be one of the grandest affairs of the kind ever held in the southwest.

Governor Roosevelt, the gallant leader of the Rough Riders, has announced his intention of being present during the entire four days of the reunion, and he will actively participate in the festivities. The second day of the reunion he will tell the story of the Rough Riders, in a mammoth coliseum to be erected for the purpose on the fair grounds. Among other prominent military men and civilians who are expected are General Leonard Wood, Major Brodie, General Frederick Funston, General Joe Wheeler and the governors of the adjacent states.

### The Kentucky Liquor Store

handles straight Kentucky whiskey, bottled goods a specialty. Family trade solicited, goods delivered.

Telephone No. 13.

to her residence, opposite the M. E. church, and in order to effect a quick sale, is offering everything

## Below Cost!

Call early and secure bargains

## Advice of a Druggist

"It is proper, I think, to let others know about the popularity and virtues of Acker's English Remedy for Coughs, Colds and Consumption. From the moment I began handling it, its popularity and the sales keep growing all the time as fast as people find out what a remarkable preparation it is. The satisfaction it gives is universal. Our best citizens use it and say it is the best thing for throat and lung troubles they ever saw. Mr. S. H. Culver, one of our prominent townsmen, says Acker's English Remedy is the only medicine that helped his chronic cough of many years' standing. At first it gave relief, and now, after taking a few bottles, he is wholly cured. I buy it by the gross at a time, and my sales are larger on this one medicine than on any other in my store. It is a great pleasure for me to feel that while I am prospering I am also doing so much good to the community in selling such a grand medicine." (Signed) R. R. DOUGLAS, Westfield, N. Y.

Sold at 25c, 50c, and \$1 a bottle, throughout the United States and Canada; and in England, at 1s, 2s, 3s, 4s, 6d. If you are not satisfied after buying, return the bottle to your druggist, and get your money back.

We authorize the above guarantee.  
W. H. HOOKER & CO., Proprietors, New York.  
For Sale by H. C. Hitchcock, Globe.
